

2017 Department of Biology Awards

JAY R. WEST AND LORAINÉ M. WEST ENDOWED
SCHOLARSHIP

Tyson Stone, Public Health

Since my high school anatomy class, it has been my desire to go into a health-related field. When I decided to attend Utah State University I wanted to select a program that matched my desires to cure and prevent disease. This interest is what convinced me to enroll in the Public Health program. This past year has been the most rewarding time of my education, allowing me to achieve better grades and enjoy my classwork more than I ever have. Attending Pre-Dental and Pre-Med club events this year as time and scheduling allows have inspired my decision to attend dental school and become a pediatric dentist. I look forward to the opportunity to make a potential frightening situation enjoyable for children. The Jay R. West and Lorraine M. West Endowed Scholarship has provided me the opportunity to follow my dreams.
