

THOMAS L. BAHLER SCHOLARSHIP

JACOB ROUNDS

BIOLOGY, SOPHOMORE

A few things about me:

My name is Jacob Rounds. I am 21 years old and I am studying biology during my second semester at Utah State University. I am a Cache Valley native and grew up in a small town called River Heights. My family consists of five children, with myself being the 4th child. I recently returned from serving a religion-based mission for the Church of Jesus Christ of Latter-day Saints in Russia. As previously mentioned, I am studying biology in hopes of working in the medical field at some point in time. I have a desire to use my future talents to benefit society by helping those in need or who may have financial difficulty gaining access to quality care. I am still undecided as to which general direction to take. I am working my way through school and have taken many small jobs over the course of this last year to make ends meet. I am relocating this upcoming summer to take a sales job in Colorado. I hope to continue to develop my Russian language skills by taking Russian classes at Utah State. I enjoy studying languages, playing sports, spending time outdoors, and meeting new people.
