

*THOMAS L. BAHLER SCHOLARSHIP*

**KEMYLA SACRE**  
BIOLOGY, JUNIOR

A few things about me:

Next year I will start my junior year, seeking a biology major, with a current 4.0 GPA at Utah State University. I graduated from Box Elder High School as a Valedictorian in 2012. I have been a recipient of numerous honors and awards including Box Elder High School Math Sterling Scholar, Math Student of the Month, Science Student of the Month, Psychology Student of the Month, and Social Studies Student of the Month in the years 2011 and 2012. I have received a certificate of presentation for the Biology Undergraduate Research Symposium. I was the co-founder and co-president of Box Elder High School Social Studies Society and was an exclusive member of We Do It Right. Here, at Utah State, I am the treasurer of the African Student Association and a member of the National Student of Black Engineers. Additionally, I have done a semester of research under the supervision of Dr. Messina in 2013. While pursuing a degree, I am currently working at The Junction and Domino's Pizza. With the goal of becoming a surgeon, I often think of the pure satisfaction I am going to feel knowing my dream is about to become a reality. I hope to graduate in spring of 2016 and pursue my goal of going to medical school, where I hope to become a surgeon.
