

THE DEPARTMENT OF BIOLOGY SCHOLARSHIP

JAMES ROHWER

PUBLIC HEALTH, SENIOR

A few things about me:

I am an undergraduate student majoring in Public Health with an emphasis in Environmental Health and a minor in Spanish. I am a native of Logan, Utah, and am proud to call myself an Aggie! My desire to learn goes beyond the classroom. I currently work in the Institute for Antiviral Research on campus as a laboratory technician, and have twice participated in the Department of Biology Undergraduate Research Symposium. In addition to my studies and research, I have been an active member and officer of the Medical Unity club on campus. I served as an ambassador for the College of Science during the 2013-14 academic school year, and will continue in this appointment throughout the 2014-15 academic school year. I plan to graduate from Utah State University in the spring of 2015. With plans to continue my education in medical school in anticipation of working as a physician.
