

*Thomas L. Bahler Scholarship*

**Emily Thomas**

Biology Major, Junior

A few things about me:

I am a transfer student from the University of North Georgia where I played soccer for two years. I transferred to the Utah State University this past fall where I started volunteering in Randy Lewis's Spider Silk protein lab. I am learning how to analyze specific proteins using various methods. I make time to volunteer at Logan Regional Hospital. I am very dedicated to my future and sacrifice lots of time for learning experiences and expanding my boundaries in my undergrad. I am very thankful in receiving this scholarship, as it will aid me in my dream in becoming a dentist. I am looking into a dual degree program at dental schools to be working on a PhD while also becoming a dentist.
