

COURSE GOALS

This course will provide students with a sound understanding of all the sections on the DAT and help them to build the testing skills necessary to excel in each section. In addition, it will provide students a good review of the concepts that are most commonly seen on the actual test day. The class should be used as a measuring stick to gauge an individual's understanding of material that will be on the DAT. Other topics including application process, AADSAS, how to select schools to apply to, and interviewing procedures will also be discussed.

REQUIRED MATERIALS

The instructors have decided not to provide these materials through the bookstore because it will be less expensive for students to buy them for themselves. All materials can be found on the internet or from other dental students who have taken the DAT.

DAT 2017-2018 Strategies, Practice & Review with 2 Practice Tests: Online + Book (Kaplan Test Prep)

Cost: \$36

This is a good supplemental review book with access to 2 online full-length practice DAT Tests that will be taken as part of the course.

CLASS SUBSCRIPTION TO DAT BOOTCAMP

Cost: \$30-\$40

To aid in classroom instruction of reviewing the materials that will be on the DAT, we have asked the students who enroll in this class to be prepared to split the cost of a single class subscription of DAT Bootcamp. This subscription will be used to help review and prepare the students for specific sections of the DAT throughout the semester. This amount will vary depending on how many students enroll in the course for the semester.

SUGGESTED MATERIALS

While these will not be required for the class, these are the tools that the instructors believe are necessary to be able to score well on the DAT. It seems expensive, but these self-study materials will save lots of money compared to an off-campus prep course.

DAT Destroyer/Math Destroyer

\$200 for both

This is a good investment because you can sell it to one of your peers when you're finished with it. Any edition within the last 4 or 5 years will be acceptable. If you want to save money, try to buy it from another dental student who has already taken the DAT. This is a book full of practice questions and solutions. We will use this frequently in class.

DAT Bootcamp

Cost \$497

This program allows you access to 10 different practice exams for each section of the DAT. We will use PAT generators from DAT Bootcamp that will set a foundation of expectations of the actual DAT.

TopScore Pro for the DAT

Cost: \$59.95

This is a set of 3 practice exams that have been known to be similar in style and difficulty of the actual DAT.

Cliffs AP Biology Notes

Cost: Free PDF

Start with this in your biology review, then check your notes with Feralis' notes.

Ferrali's Biology Notes

Cost: Free on DAT Bootcamp

A student put together a comprehensive guide to the DAT biology information. Anything you need to know for the DAT biology section will be on these notes.

PRACTICE TESTS

A total of four practice test opportunities are offered during the semester. They will be offered on the Saturdays specified in the day-by-day schedule. These tests are part of the requirements to pass the class and you should plan accordingly. Once again, it is mandatory that you attend the first practice test and at least two of the final three.

GRADES

The course is graded pass/fail and is worth one credit. The grade is based on attendance and the student must attend 85% (23 out of 27) of the classes and three of the four Saturday practice test opportunities. Students must attend the tests on the days specified on the syllabus. Family events, work, or similar responsibilities will not excuse an absence. Attendance will be taken daily and turned in for grading purposes. Signing the attendance sheet for class is mandatory! If a student does not attend at least the minimum number of classes or does not take the minimum number of Saturday tests, the student will receive an "F."

STUDENTS WITH DISABILITIES

Students with physical, sensory, emotional or medical impairments may be eligible for reasonable accommodations in accordance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973. All accommodations are coordinated through the Disability Resource Center (DRC) in Room 11 of the University Inn, 797-2444, 797-0740 TTY,

or toll free at 1-800-259-2966. Please contact the DRC as early in the semester as possible. Alternate format materials (Braille, large print or digital) are available with advance notice.

UNACCEPTABLE CLASSROOM BEHAVIOR

Since a significant goal of this class is to prepare each of you for the upcoming DAT, behavior that disrupts the classroom environment will be discouraged.

1. Once class has started, cell phones must be silenced and no conversations or texting are permitted.
2. Once class has started, talking among students is strongly discouraged. If you need to talk, please leave the class and conduct your conversation outside. If students persist in talking they will be asked to leave the room so other students can benefit from the limited amount of class time available.

DAT PREP SCHEDULE

Date	Material To Cover	Resource	Important Dates
06 - Jan	1. Introduction to Instructors and DAT (Dentpin registration) 2. Introduction to PAT – videos	DAT BC	Register for Dentpin
08 - Jan	1. PAT - AR* 2. Mike's videos - GC Chapter 1 - Stoichiometry	DAT BC Ferrali's notes Mike's Videos
