

2020 Department of Biology Awards

THOMAS L. BAHLER SCHOLARSHIP

Bridger Gunter, Human Biology

My name is Bridger Gunter. I'm currently a junior at Utah State and am a Human Biology major with a minor in Chemistry. My goal is to become a health professional. I have had this dream for most of my life because of sports. I love playing and watching sports. Pushing myself and my body to its limits throughout my life has sparked an interest with the human body and how it works. Alongside sports, I

also enjoy serving others. This year I have spent a couple hours a week volunteering at an elementary school. I have really enjoyed this because it goes well with my goals. I hope to have a family someday and be able to support them. I also want to serve others by helping them professionally as well.
