

2020 Department of Biology Awards

IVAN G. PALMBLAD SCHOLARSHIP

Heather Hall, Human Biology

My name is Heather Hall and I attend Utah State University. I am a Human Biology major with a minor in Spanish. Some of my academic achievements include:

being a graduate of the National Honor Society, receiving the Principal's Leadership Award for my High School, receiving a Nonresident Waiver 70 scholarship and a USU Service Scholarship. I received these awards and scholarships because of my leadership and service involvement. I was a part of a program called Wolf Connection where I performed many service projects including: senior citizen visits, lunch buddies with kids from a nearby Elementary School, and peer mentoring Sophomores within our High School. I also am a volunteer at the local Utah Regional Hospital as well as I have been a mentor to kids with their reading skills at the nearby Elementary School. Within Utah State I am part of the Women's Volleyball Club team as well as the Pre Med Club. With that being said some of my hobbies include: playing volleyball, reading, and photography. Hobbies aside, as a Biology Major, I have every intention to attend medical school and become a doctor. Having experience in working with kids for several of my service projects, I am strongly considering becoming a pediatrician, however, that is subject to change as I get more experience. I look forward to my path ahead and can't wait to achieve my future goals.
