

2020 Department of Biology Awards

THOMAS L. BAHLER SCHOLARSHIP

Olivia Joss, Human Biology

My name is Olivia Joss, I am a junior at Utah State currently studying Human Biology. I recently completed my Associate's degree and will continue on in my schooling to earn my Bachelor's. I hope to enter the medical field in a position that I am able to help others and improve their health. Throughout High School I took as many classes as I could to help me gain more

knowledge in the medical field. I completed many concurrent enrollment courses and was able to graduate High School with 27 credits to give me a jump start on my college career. I completed a class where I am able to earn an Emergency Medical Responder certification. I have worked very hard to maintain a high GPA and to create relationships with my teachers and professors that can help me in my future career. My goals for the future are take courses and learn information that I will help me succeed in my career and to help patients to the best of my ability. After my Bachelor's I plan on attending a professional school to further my knowledge. I love learning and think Utah State has amazing professors and organizations to help me be very successful.
