

## 2020 Department of Biology Awards

### JOHN W. AND NORDA FIFE EMMETT SCHOLARSHIP

*Rachel Sagers, Human Biology and Public Health*

I am pursuing a BA in biology with a human emphasis and a BS in public health with an environmental emphasis, along with minors in chemistry, sociology, and women and gender

studies. I hope to attend medical school and also obtain a master's degree in public health. I will use my education to pursue a career as a public health physician and researcher. I am currently working towards these goals by conducting academic research as an undergraduate research fellow and honors student. I am also engaged in my community and currently volunteer with the Cache Valley English Language Center and Citizens Against Physical & Sexual Abuse. I work as a research assistant in a laboratory and as a peer advisor for the department of biology. I participate in numerous extracurriculars, including USU clubs Students United for Reproductive Freedom and Out in Science, Technology, Engineering and Math. In my free time I enjoy reading, traveling, and spending time with my cats.
