02/23/2017

USU evolutionary biologist Zach Gompert is the College of Science's ‘2017 Faculty Researcher of the Year.’ He and colleagues published findings from a recent study in 'Nature Ecology & Evolution.' (as published on Utah State Today)

Dr. Zach Gompert studies speciation in a group of insects commonly know as walking sticks. Dr. Gompert and colleagues have sequenced more than 1,000 stick insect genomes to find an answer to the question, what makes a unique species? Read the entire article by Mary-Ann Muffaletto.
