12/15/2017

Employees of Jacobsen Construction company place the final steel beam, adorned with an 'Aggie Blue' evergreen tree and U.S. flag, at the top of USU's new Life Sciences Building in a 'topping off' ceremony Dec. 12, 2017.

The "Topping Off" ceremony was held Tuesday, 12 December for new Life Sciences Building. Members of the College of Science, supporters, and Jacobsen Construction employees gathered to celebrate this milestone. Read the full article by Mary-Ann Muffoletto. The Life Sciences Building is projected to be complete in Fall 2018. The building will have new teaching and research labs, lecture halls, collaborative study spaces, and a cafe.
